SCRUM.

*a Japanese **manufacturing system**
in which the supply of components is
regulated through the use of an
instruction card sent **along the**
production line.*

Wait a minute...

Manufacturing System?

Production lines?

I thought we were at MacDevOps,
not Toyota Fanboys meetup

Lean, Agile, Devops all come from there

Language first!

Board == Board

Card == Card

Visualising the flow of your work

Work In Process Limits

Pull System

Boards time

Visualise opportunities to improve
Deliver Value at a Sustainable Pace
Prioritise better and more frequently

Track everything

Track work, not people

Value transparency and honesty

Foster a culture of experimentation

*The aim of kanban is to
make troubles come to the surface*
